

I requested the Route 4 to extend to Prices Corner Park Ride because of my having to walk on the dark Centerville Road morning and night for a female age 61. I just wish to thank you from the bottom of my heart because it has taken a heavy load off my shoulder. I seriously considered changing jobs to avoid the travel. I assumed it wasn't going to work but I threw it out there and prayed on it and my prayers were answered. God is good. Drew McCaskey was always my point of contact on keeping me updated on the status. I feel like you did it especially for me. Again thank you so much.
